

Async API Response And Callback Payload

API Response:

Success: (200 OK Status)

```
{  
  "ct_trace_id": "message:wa:v1:xxx-xxx-x-xx-x",  
  "status": "success",  
  "message": "accepted"  
}
```

Error Response:

Invalid Request: (200 Ok Status)

When Required body parameter missed.

```
{  
  "ct_trace_id": "message:wa:v1:xxx-xxx-x-xx-x",  
  "status": "failure",  
  "message": "Invalid request",  
  "code": 400  
}
```

Authentication Error: (403 Unauthorized)

When authentication failed due to Invalid API key , Account Inactive or suspended.

```
{
  "ct_trace_id": "message:wa:v1:xxx-xxx-x-xx-x",
  "status": "failure",
  "message": "Unauthorized",
  "code": 403
}
```

Service Unavailable: (5XX Error)

When service is unavailable (Please contact the service provider)

```
{
  "status": "failure",
  "message": "internal service error"
}
```

Message Payload:

Following is the payload while we receive incoming messages from customers.

Text Message:

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "BUSINESS_DISPLAY_PHONE_NUMBE
R",
              "phone_number_id": "BUSINESS_PHONE_NUMBER_ID"
```

```

    },
    "contacts": [
      {
        "profile": {
          "name": "WHATSAPP_USER_NAME"
        },
        "wa_id": "WHATSAPP_USER_ID"
      }
    ],
    "messages": [
      {
        "from": "WHATSAPP_USER_PHONE_NUMBER",
        "id": "WHATSAPP_MESSAGE_ID",
        "timestamp": "WEBHOOK_SENT_TIMESTAMP",
        "text": {
          "body": "MESSAGE_BODY_TEXT"
        },
        "type": "text"
      }
    ]
  },
  "field": "messages"
}
]
}
]
}

```

Reaction Message:

The following is an example of a reaction message you received from a customer. You will not receive this webhook if the message the customer is reacting to is more than 30 days old.

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {

```

```

    "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
    "changes": [
      {
        "value": {
          "messaging_product": "whatsapp",
          "metadata": {
            "display_phone_number": "PHONE_NUMBER",
            "phone_number_id": "PHONE_NUMBER_ID"
          },
          "contacts": [
            {
              "profile": {
                "name": "NAME"
              },
              "wa_id": "PHONE_NUMBER"
            }
          ],
          "messages": [
            {
              "from": "PHONE_NUMBER",
              "id": "wamid.ID",
              "timestamp": "TIMESTAMP",
              "reaction": {
                "message_id": "MESSAGE_ID",
                "emoji": "EMOJI"
              },
              "type": "reaction"
            }
          ]
        },
        "field": "messages"
      }
    ]
  }
}

```

Image Message:

When receiving an image message

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "WHATSAPP_ID"
              }
            ],
            "messages": [
              {
                "from": "PHONE_NUMBER",
                "id": "wamid.ID",
                "timestamp": "TIMESTAMP",
                "type": "image",
                "image": {
                  "caption": "CAPTION",
                  "mime_type": "image/jpeg",
                  "sha256": "IMAGE_HASH",
                  "id": "ID"
                }
              }
            ]
          }
        }
      ]
    }
  ]
}
```

```

    },
    "field": "messages"
  }
]
}
]
}

```

Video Message:

When receiving a video message:

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "WHATSAPP_ID"
              }
            ],
            "messages": [
              {
                "from": "PHONE_NUMBER",
                "id": "wamid.ID",
                "timestamp": "TIMESTAMP",

```

```

        "video": {
          "mime_type": "video/mp4",
          "sha256": "VIDEO_HASH",
          "id": "ID"
        },
        "type": "video"
      }
    ]
  },
  "field": "messages"
}
]
}
]
}

```

Audio Message:

When receiving a audio message:

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                }
              }
            ]
          }
        }
      ]
    }
  ]
}

```

```

    },
    "wa_id": "WHATSAPP_ID"
  }
],
"messages": [
  {
    "from": "PHONE_NUMBER",
    "id": "wamid.ID",
    "timestamp": "TIMESTAMP",
    "type": "audio",
    "audio": {
      "mime_type": "audio/mpeg",
      "sha256": "AUDIO_HASH",
      "id": "ID",
      "voice": false
    }
  }
]
},
"field": "messages"
}
]
}
]
}

```

Document Message:

When receiving a document message:

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {

```

```

    "messaging_product": "whatsapp",
    "metadata": {
      "display_phone_number": "PHONE_NUMBER",
      "phone_number_id": "PHONE_NUMBER_ID"
    },
    "contacts": [
      {
        "profile": {
          "name": "NAME"
        },
        "wa_id": "WHATSAPP_ID"
      }
    ],
    "messages": [
      {
        "from": "PHONE_NUMBER",
        "id": "wamid.ID",
        "timestamp": "TIMESTAMP",
        "type": "document",
        "document": {
          "caption": "CAPTION",
          "filename": "FILE_NAME",
          "mime_type": "application/msword",
          "sha256": "DOCUMENT_HASH",
          "id": "ID"
        }
      }
    ],
    "field": "messages"
  }
]
}
]
}

```

Location Messages:

The following is an example of a location message you received from a customer:

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "WHATSAPP_ID"
              }
            ],
            "messages": [
              {
                "from": "PHONE_NUMBER",
                "id": "wamid.ID",
                "timestamp": "TIMESTAMP",
                "location": {
                  "latitude": "LOCATION_LATITUDE",
                  "longitude": "LOCATION_LONGITUDE",
                  "name": "LOCATION_NAME",
                  "address": "LOCATION_ADDRESS"
                }
              }
            ]
          }
        }
      ]
    }
  ],
}
```

```

        "field": "messages"
      }
    ]
  }
]
}

```

Contacts Messages:

The following is an example of a contact message you received from a customer:

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "WHATSAPP_ID"
              }
            ],
            "messages": [
              {

}

```

Received Callback When Click on Interactive Template button:

When your customer clicks on a quick reply button in an interactive message template a response is sent. Below is an example of the callback format.

In this Payload `ct_trace_id` is added in meta callback payload if the message is sent by async send message API.

```

{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "WHATSAPP_ID"
              }
            ],
            "messages": [
              {
                "context": {
                  "from": "PHONE_NUMBER",
                  "id": "wamid.ID",
                  "ct_trace_id": "xxx-xx-x-xxxx-x",
                  "message_id": "x-x"
                },
                "from": "16315551234",
                "id": "wamid.ID",
                "timestamp": "TIMESTAMP",
                "type": "button",
                "button": {
                  "text": "No",
                  "payload": "No-Button-Payload"
                }
              }
            ]
          }
        }
      ]
    }
  ]
}

```

```
    ]  
  },  
  "field": "messages"  
}  
]  
}  
]  
}
```

Received Answer From List Message:

The following webhook notification is received when a user clicks on an item from a list message you sent:

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "PHONE_NUMBER",
              "phone_number_id": "PHONE_NUMBER_ID"
            },
            "contacts": [
              {
                "profile": {
                  "name": "NAME"
                },
                "wa_id": "PHONE_NUMBER_ID"
              }
            ],
            "messages": [
```

```
{
  "from": "PHONE_NUMBER_ID",
  "id": "wamid.ID",
  "timestamp": "TIMESTAMP",
  "interactive": {
    "list_reply": {
      "id": "list_reply_id",
      "title": "list_reply_title",
      "description": "list_reply_description"
    },
    "type": "list_reply"
  },
  "type": "interactive"
}
]
},
"field": "messages"
}
]
}
]
```

Received Answer to Reply Button:

The following webhook notification is received when a user clicks on a reply button you sent:

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
```

```

    "messaging_product": "whatsapp",
    "metadata": {
      "display_phone_number": "PHONE_NUMBER",
      "phone_number_id": "PHONE_NUMBER_ID"
    },
    "contacts": [
      {
        "profile": {
          "name": "NAME"
        },
        "wa_id": "PHONE_NUMBER_ID"
      }
    ],
    "messages": [
      {
        "from": "PHONE_NUMBER_ID",
        "id": "wamid.ID",
        "timestamp": "TIMESTAMP",
        "interactive": {
          "button_reply": {
            "id": "unique-button-identifier-here",
            "title": "button-text"
          },
          "type": "button_reply"
        },
        "type": "interactive"
      }
    ]
  },
  "field": "messages"
}
]
}
]
}

```

Message Status Updates:

The WhatsApp Business Platform sends notifications to inform you of the status of the messages between you and users. When a message is sent successfully, you receive a notification when the message is sent, delivered, and read.

Status: Message Sent:

In this Payload `ct_trace_id` is added in meta callback payload if the message is sent by async send message API.

```
{
  "object": "whatsapp_business_account",
  "entry": [
    {
      "id": "WHATSAPP_BUSINESS_ACCOUNT_ID",
      "changes": [
        {
          "value": {
            "messaging_product": "whatsapp",
            "metadata": {
              "display_phone_number": "BUSINESS_DISPLAY_PHONE_NUMBE
R",
              "phone_number_id": "BUSINESS_PHONE_NUMBER_ID"
            },
