

Send Message with Response[Sync]

Introduction

Learn how to seamlessly integrate the Send Message API to enable efficient and dynamic communication. This guide covers key features, message types, authentication, and implementation best practices to enhance user interactions.

You can send the following message types using the platform:

- **Text messages**
- **Media messages:** image, video, audio, document.
- **Location messages**
- **Interactive messages:** List messages, Reply button messages.
- **Template messages**

Constructing a Message Object for Sending Content

Field	Description
messaging_product	Required. Messaging service used for the request. Value: "whatsapp" .
recipient_type	Required. Defines the type of recipient. Currently, only "individual" is supported. Default: "individual" .
to	Required. The recipient's phone number in international format (e.g., 91XXXXXXXXXX).
type	Required. The type of message to send. Possible values: "audio" , "document" , "image" , "interactive" , "location" , "template" , "text" .
template	Required when type=template. An object containing the predefined template details to send. This field is mandatory if the message type is template.
name	Required. The name of the template being sent. Example: "TEMPLATE_NAME" . This field is mandatory if the message type is template.
language	Required. Specifies the language code of the template. Example: "en" .
components	Optional. An array of components for the template. For templates without variables in the header, body, or footer, this field can be empty ([]). This field is mandatory if the message type is template.

audio	Required when <code>type=audio</code> . A media object containing the audio file to send.
document	Required when <code>type=document</code> . A media object containing the document file to send.
image	Required when <code>type=image</code> . A media object containing the image file to send.
interactive	Required when <code>type=interactive</code> . An object representing an interactive message, which may include components like <code>header</code> , <code>body</code> , <code>footer</code> , and <code>action</code> .
location	Required when <code>type=location</code> . An object containing the geographic coordinates of the location to send.
preview_url	Optional for <code>type=text</code> . Enables URL previews in text messages if set to <code>true</code> . Default: <code>false</code> . Not used when no URL is present in the text message.
text	Required when <code>type=text</code> . An object containing the text content to send.

This table combines the general API fields with the specific JSON structure provided for a template message, ensuring all relevant fields are included.

The following objects are nested inside the message object:

- Interactive Object
- Location Object
- Media Object
- Template Object
- Text Object

Interactive Object

Field	Description
action	(Required) . Defines the action the user is expected to perform after reading the message. This could include selecting an option, interacting with a button, or other predefined actions.
body	(Optional) for <code>type=product</code> , Required for other message types). Contains the body content of the message. - <code>text</code> (<i>string</i> , Required if <code>body</code> is present): The main text content of the message. Supports emojis and markdown. Maximum length: 1024 characters.
footer	(Optional) . Contains the footer content of the message. - <code>text</code> (<i>string</i> , Required if <code>footer</code> is present): The footer text. Supports emojis, markdown, and links. Maximum length: 60 characters.
header	(Required) for <code>type=product_list</code> , Optional for other types). Contains the header content displayed on top of a message. Headers are not supported for messages of <code>type=product</code> .
type	(Required) . Specifies the type of interactive message to send. Supported values: - <code>button</code> : Use for Reply Buttons. - <code>catalog_message</code> : Use for Catalog Messages. <code>flow</code> : Use for Flow Messages.

The following objects are nested inside the interactive object:

- **Action object**
- **Header object**
- **Section object**

Action Object

Name	Description
button	Required for List Messages. Button content. It cannot be an empty string and must be unique within the message. Emojis are supported, but markdown is not. Maximum length: 20 characters.
buttons	Required for Reply Buttons. A button object can contain the following parameters: - type : Supported type is <code>reply</code> (for Reply Button). - title : Button title. It cannot be an empty string and must be unique within the message. Emojis are supported, markdown

	is not. Maximum length: 20 characters. - id : Unique identifier for your button. This ID is returned in the webhook when the button is clicked. Maximum length: 256 characters. You can have up to 3 buttons. No leading/trailing spaces in the ID.
sections	Required for List Messages. Array of section objects. Minimum: 1, Maximum: 10.
flow_id	Required for Flows Messages unless <code>flow_name</code> is set. Unique identifier of the Flow provided by WhatsApp. Cannot be used with <code>flow_name</code> . Only one of these parameters is required.
flow_name	Required for Flows Messages unless <code>flow_id</code> is set. The name of the Flow created. Changing the Flow name requires updating this parameter to match the new name. Cannot be used with <code>flow_id</code> . Only one of these parameters is required.
flow_token	Required for Flows Messages. A token generated by the business to serve as an identifier.
flow_action	Optional for Flows Messages. Action type: <code>navigate</code> or <code>data_exchange</code> . Use <code>navigate</code> to predefine the first screen, or <code>data_exchange</code> for advanced use cases where the first screen is provided by your endpoint. Default: <code>navigate</code> .
flow_action_payload	Optional for Flows Messages, Required if <code>flow_action</code> is <code>navigate</code> . Contains the following parameters: - screen : ID of the first screen of the Flow. - data : Input data for the first screen of the Flow. Must be a non-empty object.

Header Object

Name	Description
document	Required if type is set to document. Contains the media object for this document.
image	Required if type is set to image. Contains the media object for this image.
text	Required if type is set to text. Text for the header. Formatting allows emojis, but not markdown. Maximum length: 60 characters.
sub_text	Optional . Text for the header. Formatting allows emojis, but not markdown. Maximum length: 60 characters.

type	Required. The header type you would like to use. Supported values: <code>text</code> (used for List Messages, Reply Buttons), <code>video</code> , <code>image</code> , <code>document</code> .
video	Required if type is set to video. Contains the media object for this video.

Section Object

Name	Description
rows	Required for List Messages. Contains a list of rows. Maximum 10 rows. Each row must have a <code>title</code> (max 24 characters), <code>id</code> (max 200 characters), and optionally a <code>description</code> (max 72 characters).
title	Required if the message has more than one section. Title of the section. Maximum length: 24 characters.

Location Object

Name	Description
latitude	Required. Location latitude in decimal degrees for sending location-based messages via the API.
longitude	Required. Location longitude in decimal degrees for sending location-based messages via the API.
name	Required. Name of the location to include in the location message sent through the API.
address	Required. Address of the location to be included in the location message sent via the API.

Media Object

Name	Description
id	Required when type is audio, document, image, sticker, or video and you are not using a link. The media object ID. Do not use with text messages.
link	Required when type is audio, document, image, sticker, or video and you are not using an uploaded media ID. Use with HTTP/HTTPS URLs for media hosted on a server.
caption	Optional. Media asset caption. Do not use with audio or sticker media. Limited to 1024 characters for certain API versions. Not supported for document media.

filename	Optional. Describes the filename for document media, specifying the format for display in WhatsApp.
-----------------	--

Template Object

Name	Description
name	Required. Name of the template.
language	Required. Contains a language object specifying the language the template may be rendered in. The language object includes the following fields:
code	Required. The code of the language or locale to use, accepting both language and language_locale formats (e.g., en and en_US). For all codes, see Supported Languages.
components	Required. This field is mandatory if the message type is template.

The following objects are nested inside the `template` object:

- **Button object**
- **Components object**
- **Parameter object**

Button Object

Name	Description
type	Required. Indicates the type of parameter for the button (e.g., text, payload).
payload	Required for quick reply buttons. Developer-defined payload that is returned when the button is clicked, in addition to the display text.
text	Required for URL buttons. Developer-provided suffix that is appended to the predefined prefix URL in the template.

Components Object

Name	Description
type	Required. Describes the type of component. Example: <code>body</code> , <code>header</code> , <code>button</code> .
sub_type	Required when type is <code>button</code> . Specifies the type of button, such as <code>url</code> .
parameters	Required when type is <code>button</code> . Contains an array of parameter objects for the button's content.

index	Required when type is <code>button</code> . Specifies the button's position in the message, with index values from 0 to 9.
--------------	---

Parameter Object

Name	Description
type	Required . Describes the parameter type. Supported values: currency, date_time, document, image, text, video. For text-based templates, only currency, date_time, and text are supported.
text	Required when type=text. The message's text. Character limit varies based on the component type.
image	Required when type=image. A media object of type image. Captions not supported when used in a media template.
document	Required when type=document. A media object of type document. Only PDF documents are supported. Captions not supported when used in a media template.
video	Required when type=video. A media object of type video. Captions not supported when used in a media template.

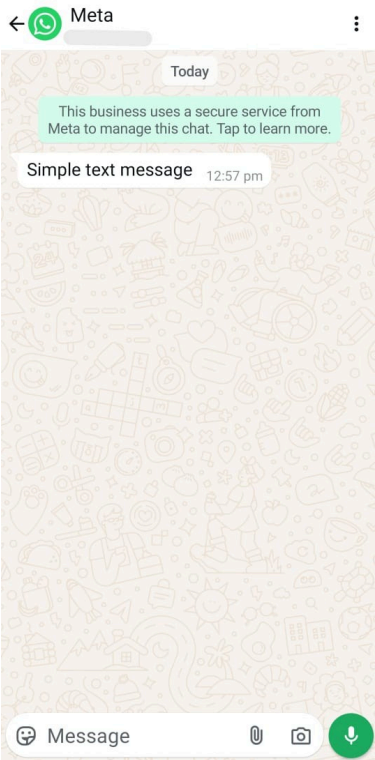

Text Object

Name	Description
body	Required for text messages. The text of the text message, which can contain URLs starting with http:// or https:// and formatting. Maximum length: 4096 characters.
preview_url	Optional . Set to true to enable link preview for any URL in the body text string. Only the first URL will be rendered as a preview. If not set, a clickable link is shown.

Examples

Text Messages

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "text",
  "text": { // the text object
    "preview_url": false,
    "body": "Simple text message"
  }
}
```

Reaction Messages

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "reaction",
  "reaction": {
    "message_id":
      "WAMID", // "Cannot react to
                 a message if it's more than
                 30 days old or doesn't
                 correspond to any message
                 in the conversation."
    "emoji": "\uD83D\uDE00"
  }
}
```

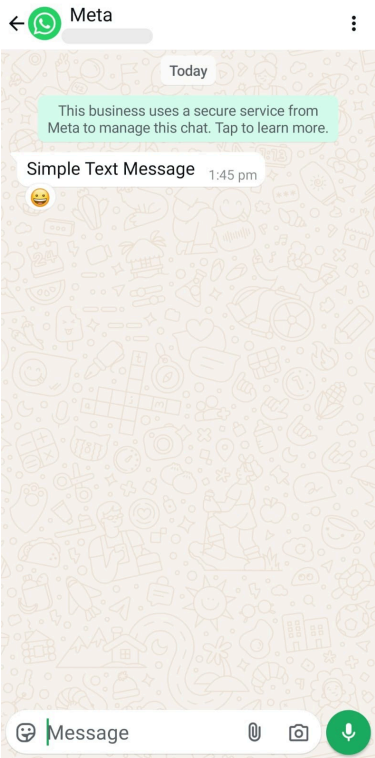

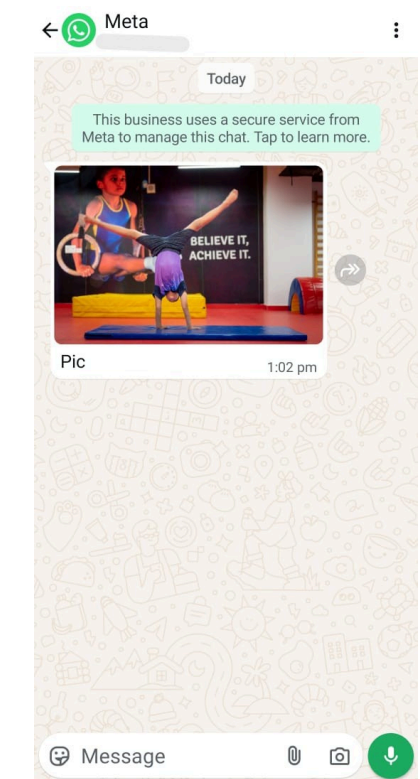

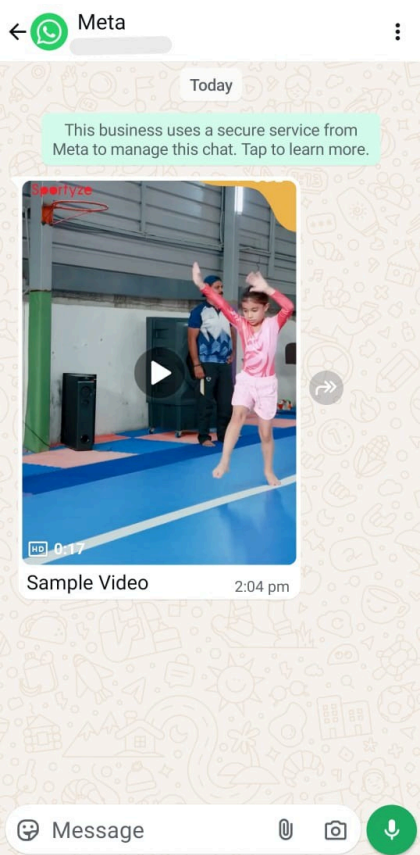

Image Media Messages

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXXXX",
  "type": "image",
  "image": {
    "link": "DOWNLOADED_MEDIA_URL",
    "caption": "Pic"
  }
}
```

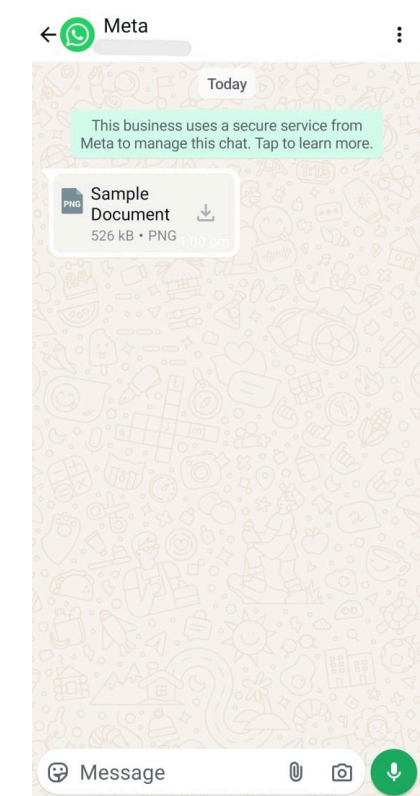

Video Media Messages

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXXXX",
  "type": "video",
  "video": {
    "id" : "<MEDIA_ID>",
    /* Only if using uploaded media */
    "link": "<MEDIA_URL>",
    /* Only if linking to your media */
    "caption": "Sample Video"
  }
}
```

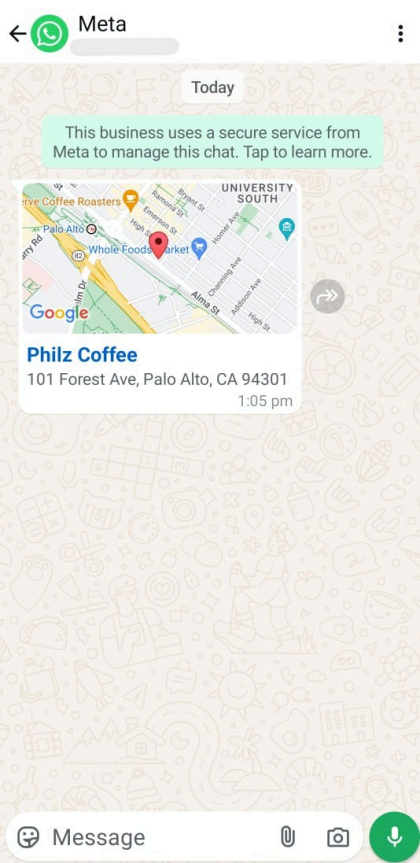

Document Media Messages

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "document",
  "document": {
    "id" : "<MEDIA_ID>",
    /* Only if using uploaded media */
    "link": "<MEDIA_URL>",
    /* Only if linking to your media */
    "caption": "<DOCUMENT_CAPTION>",
    "filename": "Sample Document"
  }
}
```

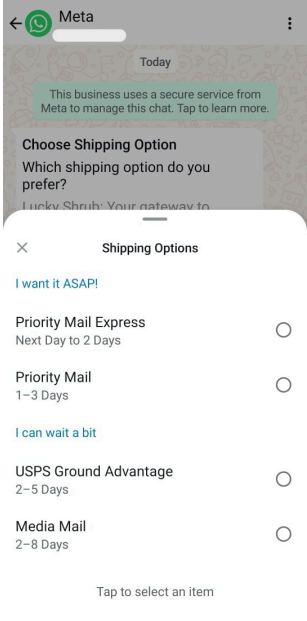

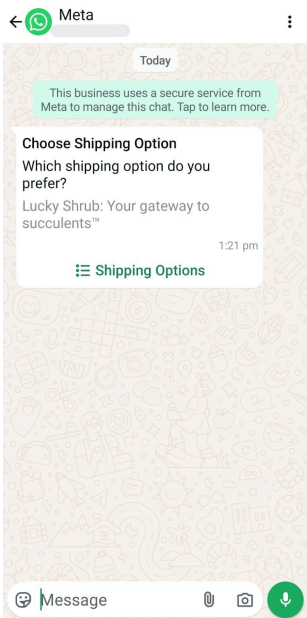

Location Messages

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "location",
  "location": {
    "latitude": "37.44216251868683",
    "longitude": "-122.16153582049394",
    "name": "Philz Coffee",
    "address": "101 Forest Ave, Palo Alto"
  }
}
```

Interactive List Messages

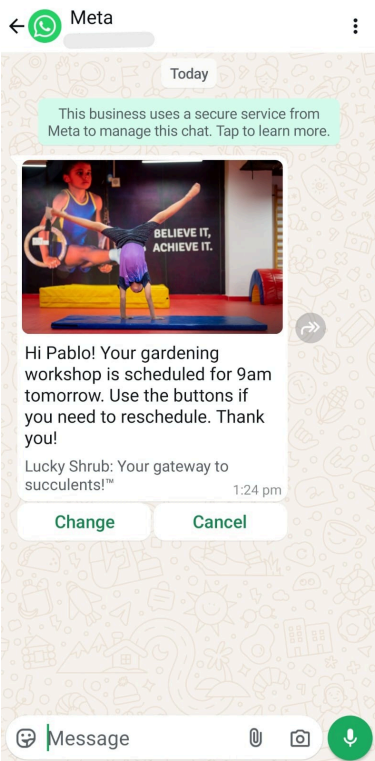

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "interactive",
  "interactive": {
    "type": "list",
    "header": {
      "type": "text",
      "text": "Choose Shipping Option"
    },
    "body": {
      "text": "Which shipping option do you prefer?"
    },
    "footer": {
      "text": "Lucky Shrub: Your gateway to succulents™"
    },
    "action": {
      "button": "Shipping Options",
      "sections": [
        {
          "title": "I want it ASAP!",
          "rows": [
            {
              "id": "priority_express",
              "title": "Priority Mail Express",
              "description": "Next Day to 2 Days"
            },
            {
              "id": "priority_mail",
              "title": "Priority Mail",
              "description": "1-3 Days"
            }
          ]
        },
        {
          "title": "I can wait a bit",
          "rows": [
            {
              "id": "usps_ground_advantage",
              "title": "USPS Ground Advantage",
              "description": "2-5 Days"
            },
            {
              "id": "media_mail",
```

```
        "title": "Media Mail",  
        "description": "2-8 Days"  
    }  
]  
}  
]  
}  
}  
}
```

Interactive Reply button Messages

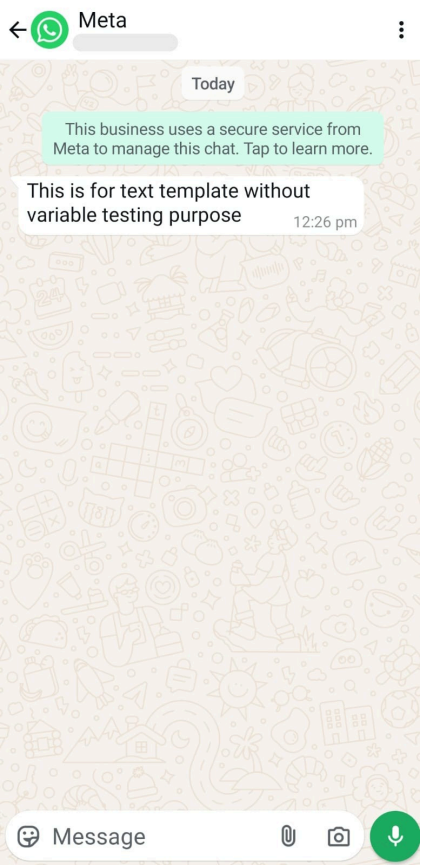

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXXXX",
  "type": "interactive",
  "interactive": {
    "type": "button",
    "header": {
      "type": "image", // here text , image , video and document is allowed and you need to add object according to type
      "image": {
        "link": ""
      }
    },
    "body": {
      "text": "Hi Pablo! Your gardening workshop is scheduled for 9am tomorrow. Use the buttons if you need to reschedule. Thank you!"
    },
    "footer": {
      "text": "Lucky Shrub: Your gateway to succulents!™"
    },
    "action": {
      "buttons": [
        {
          "type": "reply",
          "reply": {
            "id": "change-button",
            "title": "Change"
          }
        },
        {
          "type": "reply",
          "reply": {
            "id": "cancel-button",
            "title": "Cancel"
          }
        }
      ]
    }
  }
}
```

Template Messages

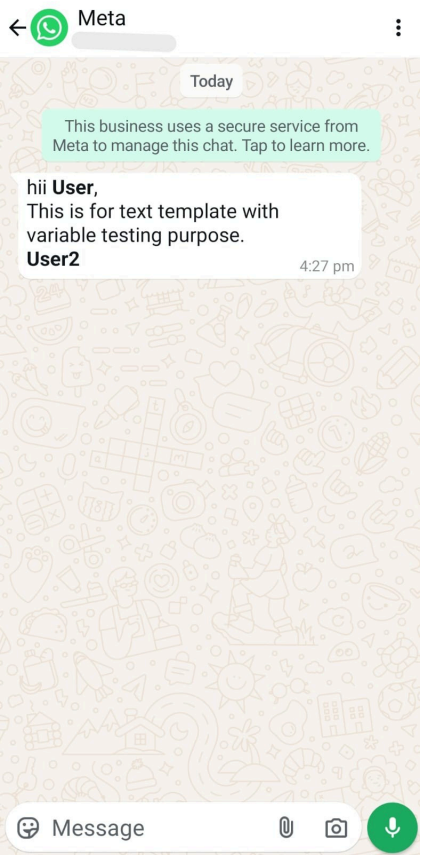

Simple Template Message [Without any dynamic Varibale]

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "text_template_without_variab
e",
    "language": {
      "code": "en"
    }
  }
}
```

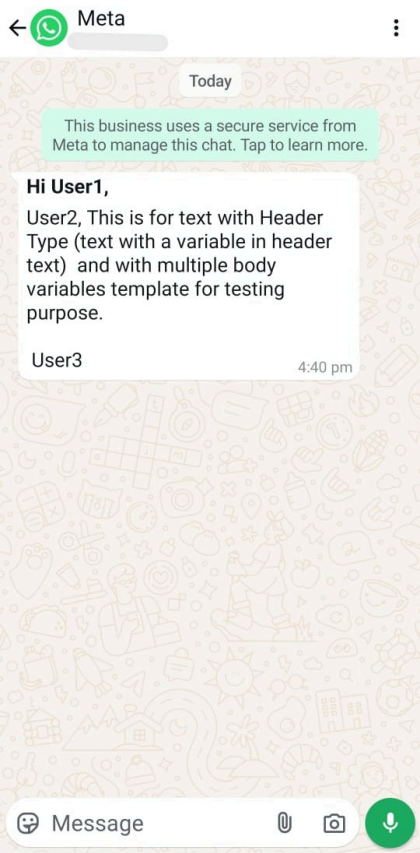

Simple Template Message [With dynamic Varibale]

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "testing",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "body",
        "parameters": [
          {
            "type": "text",
            "text": "User"
          },
          {
            "type": "text",
            "text": "User2"
          }
        ]
      }
    ]
  }
}
```

Template[Body Text and Header with Variable]

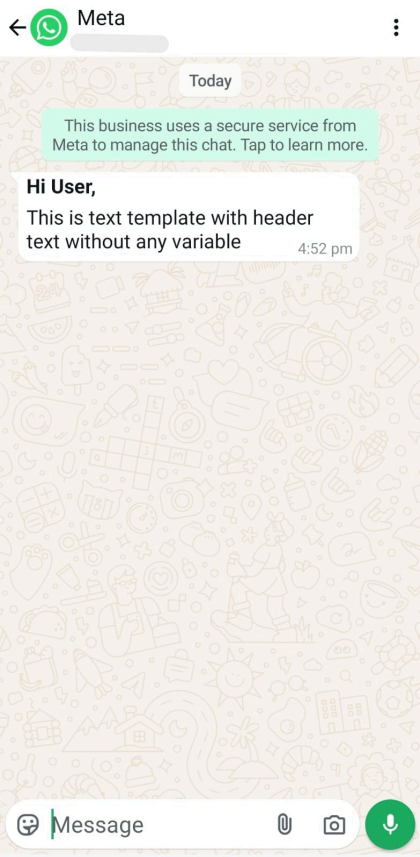

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "variable_in_header_and_body",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "header",
        "parameters": [
          {
            "type": "text",
            "text": "User1"
          }
        ]
      },
      {
        "type": "body",
        "parameters": [
          {
            "type": "text",
            "text": "User2"
          },
          {
            "type": "text",
            "text": "User3"
          }
        ]
      }
    ]
  }
}
```

Template[Body Text and Header without Variable]

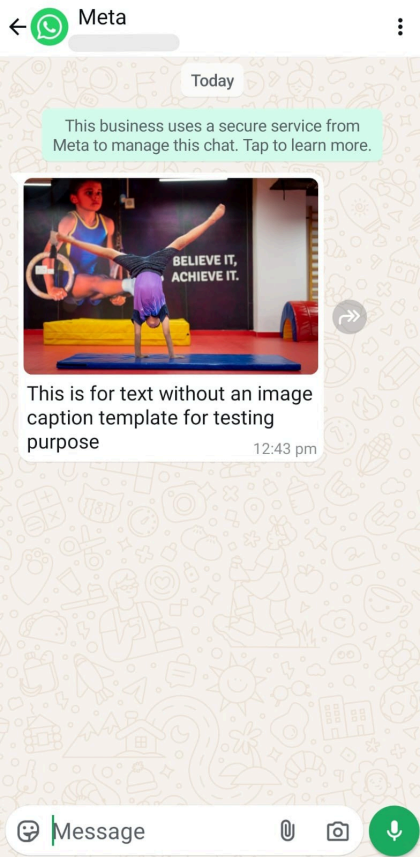

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "header_text_without_variable",
    "language": {
      "code": "en"
    }
  }
}
```

// no need of adding extra code if header does not contain any variable

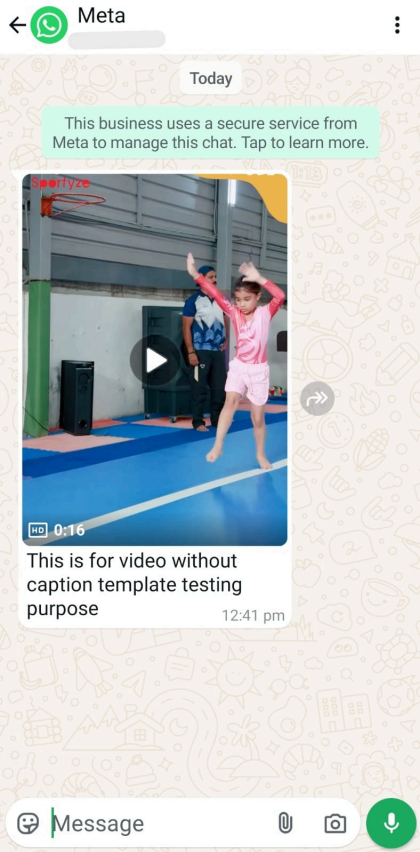

Template [Body Text and Image Media]

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "image_temp_test",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "header",
        "parameters": [
          {
            "type": "image",
            "image": {
              "link": "DOWNLOADABLE_MEDIA_
URL"
            }
          }
        ]
      }
    ]
  }
}
```

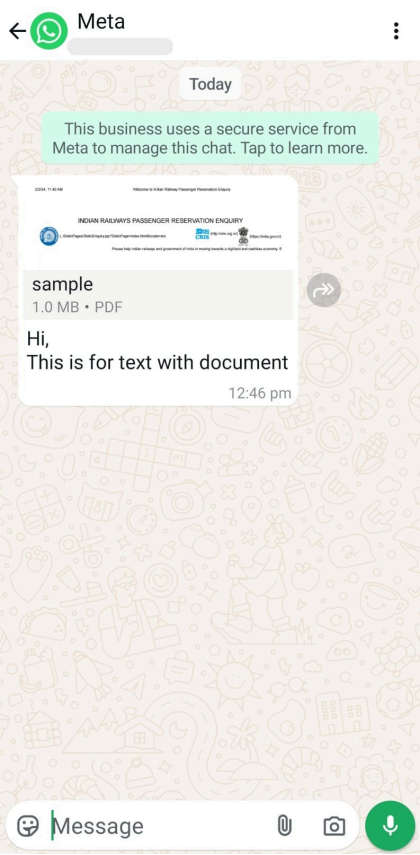

Template [Body Text and Video Media]

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "text_without_video_caption",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "header",
        "parameters": [
          {
            "type": "video",
            "video": {
              "link": "DOWNLOADABLE_MEDIA_URL"
            }
          }
        ]
      }
    ]
  }
}
```

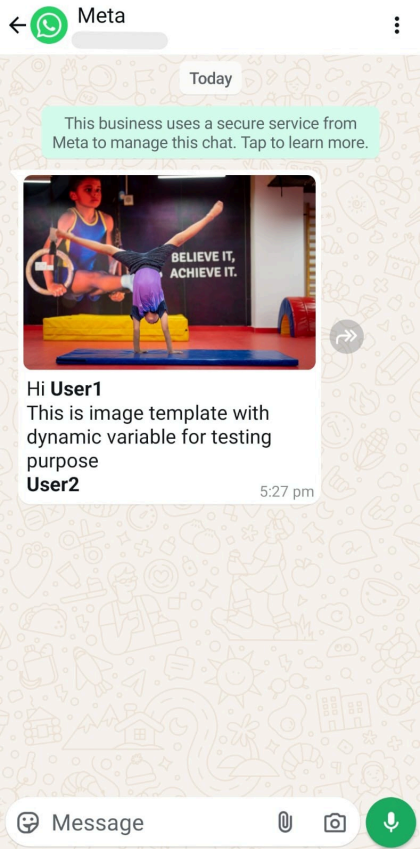

Template [Body Text and Document Media]

```
{
  "messaging_product": "whatsapp",
  "message_id": "XXXXXX-XXX-XXX",
  "recipient_type": "individual",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "text_with_document",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "header",
        "parameters": [
          {
            "type": "document",
            "document": {
              "link": "DOWNLOADABLE_MEDIA_URL",
              "filename": "sample"
            }
          }
        ]
      }
    ]
  }
}
```

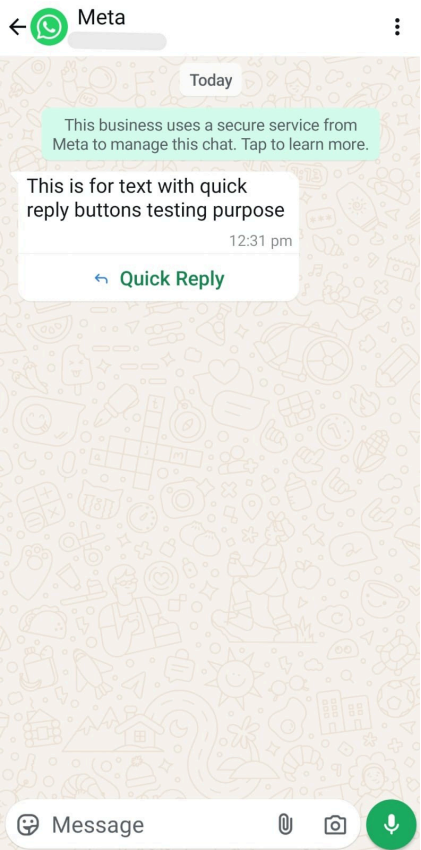

Template [Media With body Dynamic variable]

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "media_with_body_dynamic_varia
ble",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "body",
        "parameters": [
          {
            "type": "text",
            "text": "User1"
          },
          {
            "type": "text",
            "text": "User2"
          }
        ]
      },
      {
        "type": "header",
        "parameters": [
          {
            "type": "image",
            "image": {
              "link": "DOWNLOADABLE_MEDIA_
URL"
            }
          }
        ]
      }
    ]
  }
}
```

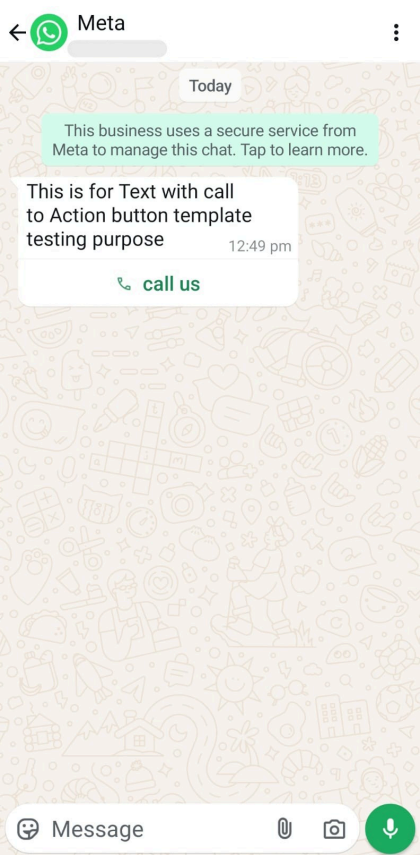

Template [TEXT with QUICK REPLY]

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "text_template_with_quick_reply_buttons",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "button",
        "sub_type": "quick_reply",
        "index": "0",
        "parameters": [
          {
            "type": "payload",
            "payload": "Quick Reply"
          }
        ]
      }
    ]
  }
}
```

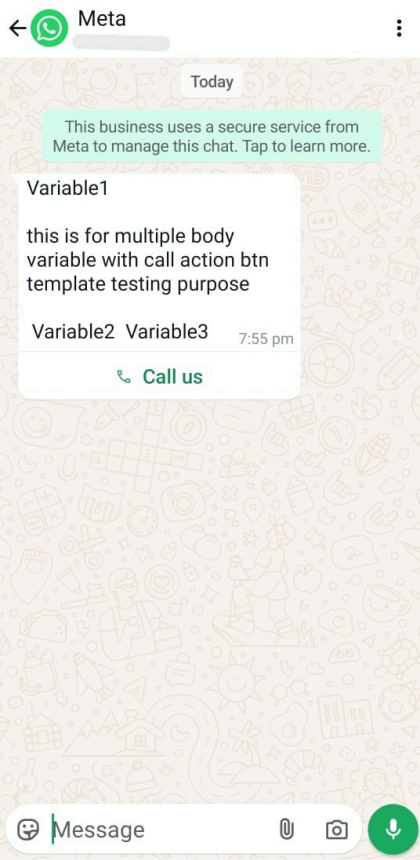

Template[Body Text and Call-to-Action Button]

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "text_template_with_call_to_action_button",
    "language": {
      "code": "en"
    },
    "components": []
  }
}
// no need to pass any button json for CTA
```

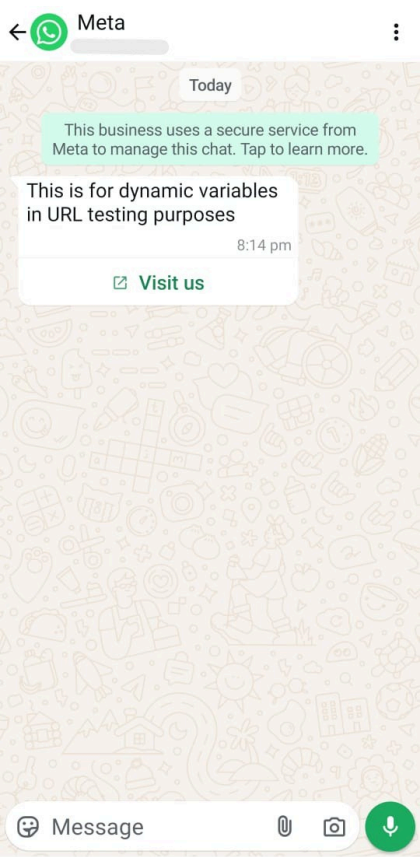

Template[Body Text with variables and Call-to-Action Button]

```
{
  "messaging_product": "whatsapp",
  "recipient_type": "individual",
  "message_id": "XXXXX-XXX-XXX",
  "to": "91XXXXXXXXXX",
  "type": "template",
  "template": {
    "name": "multiple_body_variable_with_call_action_btn",
    "language": {
      "code": "en"
    },
    "components": [
      {
        "type": "body",
        "parameters": [
          {
            "type": "text",
            "text": "Variable1"
          },
          {
            "type": "text",
            "text": "Variable2"
          },
          {
            "type": "text",
            "text": "Variable3"
          }
        ]
      }
    ]
  }
}
```

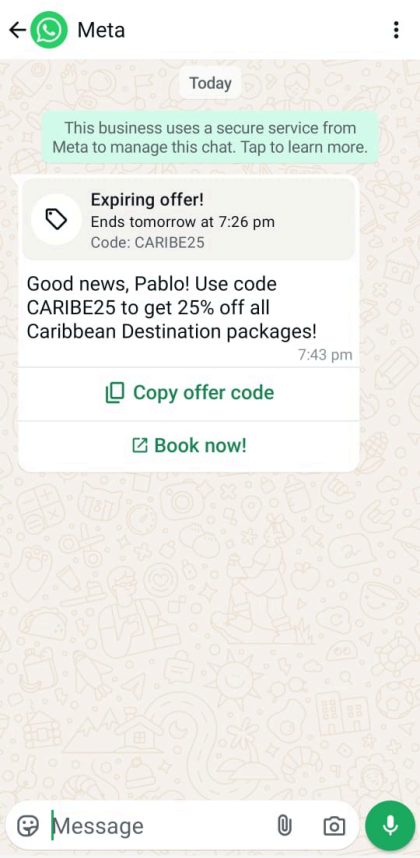

Template[Text and Variable in URL Button]

```
{
