

The screenshot shows the Times Mobile dashboard interface. On the left, a vertical menu contains various icons, with the 'triangle-type icon' (a circle with a triangle) highlighted. The main content area displays a table with columns: SUBDOMAIN, WA REGISTERED NO, POC CONTACT NUMBER, STATUS, and CREATED AT. The first row shows 'timesmobile' with a dropdown arrow next to it. Below the table, there are several sections: 'Client Details' (Org Name: Times Mobile, Org Email: nbin.tyagi@timesinternet.in, Org Mobile Number: 918447700311, API Key: 589e1734721b6f23e5ee549715b98f0cf0ee061586bf68155, Webhook URL: N/A), 'Organization Details' (Org Id For Login: timesmobile, Org Name: Times Mobile, Org Created At: Apr 19, 2024 4:06 PM), 'Admin Details' (Admin Name: N/A, Admin Login Number: 919560454543), 'Whatsapp Details' (Client Channel Name: Whatsapp, Channel Created At: Apr 26, 2024 1:36 PM), and 'WA Channel Details' (View Config Data, Sync Data). The 'View Config Data' button is highlighted with a red circle.

- Log in to your panel.
- Click on the triangle-type icon in the left menu
- Click on the drop-down button under the subdomain.
- Click on 'view config data option'.

The screenshot shows the 'WA Webhook Details' section of the Times Mobile dashboard. The 'Update Data' button is highlighted with a red circle. Below this, there are four status indicators: 'Client Message Webhook : Inactive', 'Internal Message Routing : Inactive', 'Client Status Webhook : Inactive', and 'Internal Status Routing : Inactive'. Further down, there is a 'Chat Status Setting' section with a 'Select Role...' dropdown, a 'Disable Chat Status' toggle, and an 'Apply' button. At the bottom, there is an 'Opted In-Out Keywords' section with an 'Add' button and a message 'No data found'.

- Scroll down and click on 'update data'.

- A window will pop up in front of you
- enable all the toggles under 'update client channel data'.
- Update the webhook detail
 - Type: Message / Status
 - Webhook Url: Enter your webhook URL.
 - Platform: check the list of all platforms where you want to receive the webhooks. If your platform is not listed, select 'custom'.
- Please refer to above screenshot for more clarity.
